

This tutorial is intended to assist Swiftel customers with setting up their swiftel.net or brookings.net email accounts on the **Mail app for iPhones with iOS 16.0 or newer** (this tutorial was created using an iPhone running iOS v. 16.3.1).

- 1) Tap on the **Settings** icon on your iPhone.

- 2) Scroll down through the settings menu until you find the **Mail** option, then tap on it to continue.

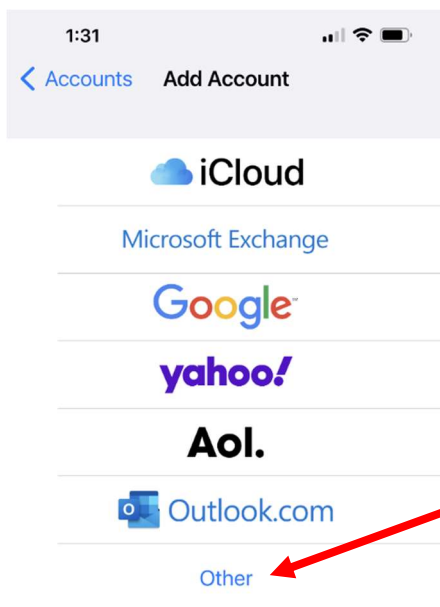

- 3) Now tap on **Accounts**.

4) Tap on **Add Account**.

5) Tap on the **Other** option.

6) Then, tap on **Add Mail Account**.

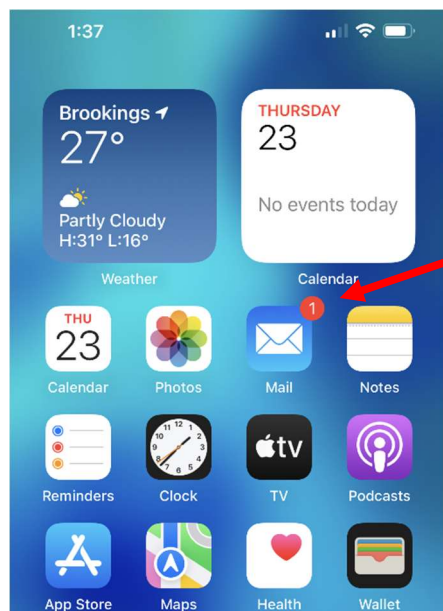

7) Enter the information according to the example below. Then tap on **Next** to continue.

Name	Test User
Email	mailtest@swiftel.net
Password	
Description	Swiftel

- 8) You'll then be given some options to fill in. Choose the **IMAP** option at the top and then fill in the information according to the example given below. When you're finished, tap on **Next** to continue.

- 9) Tap on **Save** at the top of the screen.

- 10) You are now done and can open your Mail app and see a screen similar to the example below. If you don't see any of your emails in the inbox then refresh/sync your email by dragging down from the top of the inbox.

We thank you for using this tutorial and hope that it has been helpful and successful in setting up your Swiftel e-mail in Gmail.
